Fundamental analysis

Investment process focused on finding companies priced to offer a significant margin of safety to protect against adverse changes in economic circumstances

Focus on well managed competitively entrenched companies

Emphasis on strong balance sheets, free cash flow, and high return on equity

Seek long term results that are less dependent on the economy due to a disciplined approach to identify mispriced well financed companies

Construct concentrated portfolio

INVESTMENT PROCESS

South Atlantic Capital will focus on long term results and will not attempt to make short term predictions on the economy, the market, or investment trends. South Atlantic Capital invests in companies that have sustainable advantage, generate substantial free cash flow, and have high return on equity. Portfolios are typically invested in approximately 20 holdings, usually U.S. listed stocks and ADR's. As the situation warrants, investments are made from time to time in fixed income and gold backed ETF's. More income-oriented accounts may own master limited partnerships. The portfolio manager will retain cash for buying opportunities. South Atlantic Capital believes that the best way to create a margin of safety against unexpected negative developments and market swings is to buy undervalued companies.

INVESTMENT PROCESS

- 15-25 Positions
- Strong balance sheets which allow a company to gain share in economic downturns
- Maximum individual equity exposure approximately 10% at cost
- Positions trimmed at above 10%
- Average cash positions 8-10%
- Holding periods 3-5 years
- Annual turnover for 2018 was approximately 26%

DISCLOSURES

1. **South Atlantic Capital Core Equity Composite** contains all fully discretionary accounts invested in equities excluding accounts that use significant leverage. For comparative purposes it is measured against the total return for the S&P 500. It includes accounts managed for capital appreciation as well as accounts managed for a combination of capital appreciation and current income. The equity securities are typically mid cap and large cap value oriented U.S. equities and ADR's of similar capitalization. The portfolios also include equity securities that provide higher current income such as master limited partnerships, real estate investment trusts and similar securities that "pass through" most of their cash flow as distributions. The portfolios may from time to time invest in fixed income securities and various hedges such as gold backed ETF's as conditions warrant. The portfolios are typically invested in 15-25 positions but have held fewer than 15 positions in the past.
2. **S&P 500 Index** has been widely regarded as the best single gauge of the large cap U.S. equities market since the index was first published in 1957. The index has over U.S. \$4.83 trillion benchmarked, with index assets comprising approximately U.S. \$1.1 trillion of this total. The index includes 500 leading companies in leading industries of the U.S. economy, capturing 75% coverage of U.S. equities and includes the reinvestment of dividends of companies in the S&P 500.
3. **Supplemental Information** provided is based on actual separately managed accounts from South Atlantic's Core Equity Composite that are representative of the firm's investment strategy for this composite. This information is provided as a supplement to the GIPS® compliant presentation.
4. **South Atlantic Capital** is an independent investment adviser registered with the State of North Carolina and the Commonwealth of Virginia. South Atlantic Capital claims compliance with the Global Investment Performance Standards (GIPS®). The firm maintains a complete list and description of composites, as well as GIPS® compliant presentations, which are available upon request. Ashland Partners & Co., LLP, our previous independent verifier, verified South Atlantic Capital's compliance on a firm-wide level for the period of January 1, 1992 to September 30, 2016. ACA Performance Services has verified our firm-wide compliance for the period of September 30, 2016 to June 30, 2018.
5. Returns are presented net of management fees and include the reinvestment of all income. The U.S. Dollar is the currency used to express performance. Policies for valuing portfolios, calculating performance, and preparing compliant presentations are available upon request, as is GIPS compliant presentations and lists and descriptions of South Atlantic Capital's composites, by emailing Info@SouthAtlanticCap.com or calling (910) 763-4113. Portfolio composition is subject to change at any time and references to specific securities, industries, and sectors referenced in this letter are not recommendations to purchase or sell any particular security. Current and future portfolio holdings are subject to risk.
6. The discussion of our firm's investments and investment strategy (including current investment themes, the portfolio managers' research and investment process, and portfolio characteristics) represents the firm's investments and the views of the investment adviser, at the time of this letter, and are subject to change without notice.
7. Past results are not indicative of future investment results. An investor should further understand that future results may result in losses for account holders.
8. South Atlantic Capital's minimum account size is \$250,000.
